In Science we are reading about earthquakes and volcanoes! We will be researching volcanoes (11/9-11/13) and creating a Power Point presentation! Please ask your child how their research is coming along. If you have any information on volcanoes, please feel free to send it to school with your student!

If you are interested in donating any books, Room 10 is always graciously accepting your gently used books. Thank you to several parents that have already generously added to our collection!
