

WELCOME TO ART!

Second, third, and fourth grade have completed their third art projects and they look amazing! Fifth grade is close to completing their project and it is clear they are all extremely talented artists! Ask them about their work and listen to them use their newest art terminology in their descriptions! They really know their stuff!

February

This month we will be studying a particular artist as well as culture.

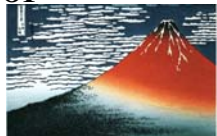

In 2nd grade, we will be learning about Mayan art. We will create our own version of their Sun God.

In 3rd grade, we will be learning about Anthony Cragg. We will make our own paper sculpture inspired by his which emphasizes movement.

In 4th grade, we will be learning about Hokusai. We will recreate one of his works using the technique, printmaking.

In 5th grade, we will be finishing our African masks. Then we will learn about Turner, creating a landscape using watercolors much like he did.

If you would like to contact me with any questions or concerns, my phone number is (630) 458- 2982 and my email is lkstruc@asd4.org.
